

ATTENTION YOUNG ENGINEERS...

MODEL MALLARD

HIGH SPEED RAIL

The National College

# SPEED CHALLENGE

2018 is the 80th anniversary of Mallard's record

Can you beat 126 mph?

How fast can you go?

Not got one?

We'll help you find a model to enter

PRIZES

Visit [www.OOLiveSteam.com](http://www.OOLiveSteam.com) for competition details

Hornby Live Steam was discontinued in 2008. Today the vast majority lie dormant but they CAN go FAST and youngsters love it.

Owners found them tricky to run but they can be mastered with patience. The OO Live

Steam Club's Roadshow visitors have-a-go and soon learn slow accurate control but they CAN go FAST and youngsters love it.

We want to see Hornby Live Steam back in joyful use.

Young people could be a driving force. Find these model engineering marvels, enter the competition, learn about mechanical and electrical control...

...and have fun!

## Two competitions

### 1 Actual Speed

Real Hornby Live Steam models on a specially built track. We'll help you find one to run.

### 2 Art & Design

Drawings, paintings, computer graphics, models. Be imaginative! How could Mallard go much faster!

Locos will pull a Dynamometer Car\* from Rails of Sheffield

\*It does not measure the speed. This will be done independently.

Heat locations to be announced. The finals will be held at The National Festival of Railway Modelling at Peterborough, 8th - 9th December.
